Career Objective

Dedicated and eager to grow, I'm looking for opportunities to sharpen my technical skills, tackle real-world challenges, and contribute to meaningful projects through continuous learning and innovation.

Education

CMR Institute of Technology , BE in Information Science	2022 – 2026
• CGPA: 8.91/10.0	
Sri Taralabalu Jagadguru College , Davanagere, Higher Secondary	2021 – 2022
• Percentage: 95.3%	
Delhi Public School, Pali-Marwar , Secondary School	2019 – 2020
• Percentage: 87%	

Projects

QR Code-Based Menu System

- Developed a digital menu system using QR codes to enhance customer experience in restaurants and cafes by eliminating the need for physical menus.
- Implemented dynamic QR code generation, real-time updates for pricing and availability, and order tracking to streamline restaurant operations and reduce manual errors.
- Integrated a responsive web-based menu with a secure backend, allowing restaurants to modify menu items instantly and improve efficiency.
- **Technologies Used:** HTML, CSS, JavaScript, Python (Flask), MySQL/MongoDB

Chatbox Application

- Developed a real-time chat application with Firebase Authentication for secure login, enabling seamless communication between users.
- Implemented features like media sharing, push notifications, and a modern UI with chat animations to enhance user engagement.
- Added end-to-end encryption for secure messaging, ensuring privacy and data protection for users.
- **Technologies Used:** Flutter, Dart, Firebase Authentication, Firestore, Cloud Messaging

Certifications

- The Complete Web Development Bootcamp – Udemy
- 100 Days Of Code by Angela Yu – Udemy
- Introduction to C Programming Fundamentals - Coursera

Technical Skills

Programming Languages: C, Java, SQL, JavaScript

Tools/Technologies: SQL, Tableau, Power BI, Microsoft Excel, LaTeX

Web Development: HTML, CSS, JavaScript
